Relax.

Look Younger. Live Longer.

Look as Good as You Feel

At MedSpa, we offer services so you can, "Look Younger. Live Longer." Focused on healthy lifestyles, MedSpa helps clients look as good on the outside as they feel on the inside.

With a wide range of services ranging from skin care to laser services, weight management, nutrition counseling, and more, MedSpa is committed to improving each client's life.

Relaxation

You'll enjoy the relaxing and attractive spa. Beautiful furnishings coupled with low lighting and tranquil music set the stage for a real transformation. You'll leave feeling refreshed and pampered. We ask that you kindly turn off all cell phones and take a mental break while visiting the spa. Our focus is on relaxation and rejuvenation.

Your Safety

Under the direction of Dr. Murali Krishna, every member of the team is focused on your safety. From the type of technology we use, to the processes we have in place for skin care, laser hair removal, peels, vein treatments and all other services, we put our client's health and well-being first.

Key Services

Dermal Fillers

As we age, we often begin to notice lines and wrinkles particularly around the mouth and eyes. Dermal fillers, such as Juvederm® and Restylane®, fill the lines and make the skin look smoother and younger.

Botox®

This prescription medicine helps to temporarily lessen the appearance of wrinkles. Botox® can be used for many cosmetic goals, and we can advise patients based on their unique needs.

Laser Hair Removal

From unwanted moustaches to unsightly facial hair, we use laser therapy to interrupt hair follicles to prevent future re-growth. Safe, effective, and permanent, the laser can also be used for under-arms, legs, and forearms.

Laser Vein Treatments

if you have unsightly veins, we may be able to lessen their appearance with laser vein treatments. This therapy is effective for veins in the legs, arms and hands.

Skin Conditioning

The feel of your skin is so important to how you feel about yourself and unfortunately can change with age. Through a unique system of skin conditioning products, MedSpa has helped many men and women improve the texture and look of their skin including those who have been avid sunbathers.

Chemical Peels

Chemical peels help remove the outermost layer of the skin that is often damaged from acne, sun damage, wrinkles or age. Uneven, splotchy, and roughness respond to the chemicals leaving the face smoother. The result is a fresh, glowing look.

Weight Loss & Management

Gaining weight can lead to serious health consequences, and at MedSpa we help men and women overcome the challenges of those added pounds. From nutritional counseling to weight management programs, our goal is to help individuals shed those extra pounds once and for all.
